Grow

In a sunny classroom, complete with sand and water tables, puzzles, toys and books, preschoolers develop skills in the four key “building blocks”.

Through play, music, games and crafts, preschoolers are exposed to new ideas and experiences through a variety of activities and themes. Together with their peers they learn about taking turns, patience and how to be a good friend.

Play

Whether playing games in the gym, swinging in the kids' courtyard, or playing parachute on the lawn - there's lots of space for preschoolers to run, play and have fun!

Daily Schedule

There is a lot of activity and fun to pack into a preschool day!

Activities include:

Welcome and Table Time

Circle Time: stories, games and songs

Center Time: crafts, learning centers and free play

Snack Time and Recreation Time

Monthly newsletters include information about what your preschooler is learning in class as well as information about upcoming field trips, show 'n' tell, theme parties and more!

Staff

Our experienced and caring staff are prepared to welcome preschoolers into an exciting and dynamic preschool program. With a Bachelor of Education degree and an Early Childhood Education Diploma, our teachers, help to prepare preschoolers for kindergarten in an environment based on Christian values.

Ratio: 2 staff to 16 children per class
